PROFESSIONAL SUMMARY

MCA graduate and Full Stack Developer who enjoys building responsive, user-facing web applications and reliable backend systems. Completed a Full Stack Developer Internship at Design Esthetics, where I built multi-panel admin dashboards, REST APIs, and a fully containerized deployment for an enterprise-level management system. Comfortable working across the stack – from crafting clean React.js interfaces to designing Express.js APIs and MySQL schemas. Three live projects built and deployed independently across web development and machine learning.

TECHNICAL SKILLS

Languages: JavaScript, Python, Java, C/C++, PHP, SQL
Frontend: React.js, Angular, HTML5, CSS3, Tailwind CSS, Bootstrap, Vite, Responsive Design, Zustand
Backend: Node.js, Express.js, Flask, REST API Design
Databases & ORM: MySQL, MongoDB, SQLite, Prisma ORM, Database Design
DevOps & Tools: Docker, Git, GitHub, GitHub Actions (CI/CD), AWS Cloud Basics (EC2, S3, RDS), Linux, Agile/Scrum
Core CS: Data Structures & Algorithms, Object-Oriented Programming, Operating Systems, DBMS, Computer Networks

PROFESSIONAL EXPERIENCE

Design Esthetics

Bengaluru, India

Full Stack Developer Intern – Team Lead

Feb 2026 – May 2026

- Built the Courses & Pricing Rates (Admin Panel) and Courses & Sessions (Instructor/Student) modules for a Flight School Management System using React 18, Vite, Tailwind CSS, Node.js, Express.js, and MySQL.
- Designed REST API endpoints with custom validation middleware and async error handling for admin, instructor, and student access levels.
- Modeled relational schemas using Prisma ORM with foreign key constraints, atomic transactions, and soft delete patterns; managed state with Zustand and IndexedDB for offline file storage.
- Containerized the full stack using Docker Compose; managed development with Gitflow, pull request reviews, and CI/CD via GitHub Actions. Contributed to team repository: github.com/Ankur5529/flight-school-management-system

TECHNICAL PROJECTS

Fit-Guide

Sep 2025 – Mar 2026

Live: fitguide-frontend-g06v.onrender.com **GitHub:** github.com/Matrix-46/Fit-Guide

- Built a full-stack health platform with React.js and Flask REST API – BMI/calorie analytics dashboard, KNN-based 7-day diet plan recommendation engine, user authentication, and admin panel across 6 modules.
- Engineered the ML pipeline using physiological feature engineering (BMI, TDEE, activity weighting) and selected KNN based on accuracy, precision, and recall metrics.

Task-Flow

Jan 2026 – Feb 2026

Live: task-flow-six-gold.vercel.app **GitHub:** github.com/Matrix-46/Task-Flow

- Built a MERN stack project management platform with REST API design, validated MongoDB schemas, and real-time task and sprint lifecycle tracking deployed live on Vercel.

Cart-Deal

Apr 2023 – Jun 2023

Live: cart-deal.gt.tc **GitHub:** github.com/Matrix-46/Cart-Deal

- Built a full-stack e-commerce application with PHP and MySQL featuring an admin dashboard for product, order, and inventory management; implemented real-time search and secure data handling via PDO prepared statements.

EDUCATION

PES University

Bengaluru, India

Master of Computer Applications (MCA) – CGPA: 7.64/10

2024 – 2026

RNS First Grade College

Bengaluru, India

Bachelor of Computer Applications (BCA) – CGPA: 8.72/10

2020 – 2023

National PU College, Basavanagudi

Bengaluru, India

Senior Secondary (XII – PCMCs) – Percentage: 85%

2018 – 2020

CERTIFICATIONS & CO-CURRICULARS

- **Oracle Agentic AI Foundations Associate** – Oracle (Jul 2026)
- **Full Stack Web Development** – Internshala (2022)
- **Advanced Python Programming** – Mega Infoware (2022)
- **University Volleyball Athlete** – Bangalore University (2022–2023) & PES University (2024–2026)
